

Aster & Loom Supplier Quality Audit Report

Document Purpose

This report records supplier evaluation results for Aster & Loom manufacturing partners. It supports transparency, quality assurance, and responsible production practices.

Supplier Information

Supplier: Bandung Apparel Manufacturing

Location: Bandung, Indonesia

Supplier Category: Garment manufacturing partner

Audit Summary

Audit status: Approved

The supplier passed Aster & Loom's internal supplier review process.

The review evaluated:

- Production quality standards
- Workplace safety practices
- Manufacturing consistency
- Material handling procedures
- Quality inspection processes
- Environmental practices

Quality Control Process

Products go through several quality checks:

1. Material inspection before production begins
2. Sewing and construction quality checks during production
3. Measurement verification against product specifications
4. Final garment inspection before packaging
5. Packaging review before shipment

Manufacturing Assessment

The supplier demonstrated:

- Consistent garment construction quality
- Reliable production processes
- Ability to meet product specifications
- Documented manufacturing procedures

Worker and Workplace Review

The supplier is required to maintain:

- Safe working conditions
- Legal employment practices
- Fair treatment of workers
- Reasonable working hours
- Compliance with local labour regulations

Product Traceability

Aster & Loom maintains records connecting products to:

- Material sourcing information
- Manufacturing partner information
- Production quality checks
- Product documentation

Customers may request information about:

- Where materials originate
- Where products are manufactured
- How production standards are maintained

Customer Support Examples

Question: Has your manufacturing partner been audited?

Answer:

Aster & Loom reviews manufacturing partners through supplier quality and responsibility assessments. Bandung Apparel Manufacturing has passed the current supplier review process.

Question: What quality checks do your products go through?

Answer:

Products undergo material inspection, production quality checks, final garment inspection, and packaging review before shipment.

Question: Are your factories safe?

Answer:

Aster & Loom requires manufacturing partners to maintain safe workplaces and follow documented worker and employment standards.
